VALID TIME FRAME AND MOBILITY DURATION

Student mobility can be realized in the length of one or two semesters. Valid timeframe for this Call is Spring Semester of the Academic Year 2021/2022.

TUITION

Host higher education institutions will not charge our students their tuition. Our students remain enrolled at RIT Croatia and are required to pay tuition here as well as to fulfill other obligations related to semester enrollment.

INSURANCE

Students are required to have insurance policy containing health insurance abroad, which can include additional insurance required by host institution/organization. This may be a requirement placed by the host country and a condition for obtaining temporary stay permit.

Croatian citizens while residing temporary in any of 28 EU countries as well as in Iceland, Liechtenstein, Norway and Switzerland can use health insurance protection based on European Health Insurance card (EHIC). Croatian citizens with valid health insurance can obtain it without additional cost at their regional HZZO office. However, not everything is included in this insurance: pay attention to medical repatriation and certain medical interventions. In case you feel there is requirement, you can buy additional health or travel insurance.

FINANCIAL SUPPORT

Financial support granted in Erasmus+ program does not have to necessarily cover all expenses related to mobility; the grant is not considered full scholarship but as a support for existing studying expenses.

Monthly financial support for student exchange is determined by the Croatian Agency for Mobility and EU Programs based on living expenses in host countries: they are divided in three groups:

Group	Program country	Financial monthly/EUR support for study exchange
Group 1 with higher life expenses	Denmark, Finland, Iceland, Ireland, Liechtenstein, Luxemburg, Norway, Sweden, United Kingdom	Up to 520
Group 2 with middle life expenses	Austria, Belgium, Cyprus, France, Germany, Greece, Italy, Malta Netherland, Portugal, Spain	Up to 520
Group 3 with lower life expenses	Bulgaria, Croatia, Czech Republic, Estonia, Hungary, Latvia, Litva, Poland, Romania, Slovakia, Slovenia, Macedonia, Turkey	Up to 470

For possible increased expenses for mobility, **students with disabilities** have the right to an increased amount of financial support. Application process for additional financing for students with disabilities will be published separately.

Students with lower socio economic status have right to apply for additional financial support in the amount of 200 EUR per month. Criteria for determining the lower socio economic status are derived from regulation of conditions and procedure on assertion of the right to state scholarship. RIT Croatia will inform students chosen under this Call, about possibilities and process of application for additional financial support.

In principle, students who apply and are not selected to receive the grant, although they conform to all criteria, can go to mobility on their own expense as **Zero grant students**.

Students cannot receive financial grant within Erasmus+ program, if their mobility abroad is additionally financed with EU funds.

State scholarships granted to students are not considered as double financing, nor funds that RIT Croatia allocate to students in order to increase monthly financial support for students.

WHO CAN APPLY

1. Students within regular undergraduate study, 2nd year or higher.
2. Non-regular students can apply to Call and use financial support only if they conduct full time student exchange during the period of mobility.
